CUSTOMER ADVISORY BOARD | FOUNDING MEMBER BRIEF

Harmonic CAB Summit

November 18-19, 2026 | Standard Meatpacking, New York

A small, hand-picked group of security leaders, one day together, helping shape where Harmonic goes next. Most of the day is your voice, not ours.

Meet your fellow founding members

We're delighted to announce the security leaders joining the inaugural CAB.

Name	Title	Company	LinkedIn
Neil Bennett	Chief Information Security Officer	Post Office	LinkedIn
Alex Cunningham	Chief Information Security Officer	Advisor360°	LinkedIn
Marty Garvin	Strategic Advisor	Rubrik	LinkedIn
Jay Hyska	Director, Security Architecture Services	Johnson & Johnson	LinkedIn
Michael Janielis	Senior Principal, Information Security Architect	Advisor360°	LinkedIn
Peter Keenan	Chief Information Security Officer	Lazard	LinkedIn
Mark Malecki	Chief Information Security Officer	Gibson Dunn	LinkedIn
Hernando Pena	AI Solutions Analyst	Centerfield	LinkedIn
Nick Sarnelli	Senior Director of App Sec, AI Sec, and ASM	Johnson & Johnson	LinkedIn
Jeremy Smith	Chief Information Security Officer	Avery Dennison	LinkedIn
John Suarez on the Behalf of Marcos Marrero	AI Operations Engineer	H.I.G. Capital	LinkedIn
Mark Sutton	Chief Information Security Officer	Bain Capital	LinkedIn
Justin Vlahacos	Head of Security Architecture & Engineering	OpenLoop Health	LinkedIn
Mark Young	Director, Amazon Foundational Security Services	Amazon	LinkedIn

Why we're gathering

- **Shape the roadmap:** a direct seat at the table on Harmonic's strategy and product priorities
- **Share what's real:** a candid forum on what's working, what isn't, and what the market needs next
- **Connect with peers:** time with security leaders working through the same AI challenges

What you'll walk away with

- **A shared view of the room's top priorities** across three themes: Govern AI Agents, Control AI Use, and Understand AI Work
- **A direct, honest response from Bryan** on how those priorities map to Harmonic's roadmap: what's coming, what's partly there, and where the gaps are
- **A clearer picture of how your peers think about an end-to-end AI security program,** and where you stand against it
- **A new peer network,** and recognition as a founding member

Three themes we'll work through

- **Govern AI Agents:** how you see, scope and oversee agents (permissions, approvals, audit, kill switch), and what you'd need to say yes to them safely
- **Control AI Use:** how you know who is using which AI tools, move employees onto approved ones, and make a fast, safe "yes" the default
- **Understand AI Work:** what AI is actually being used for, what it's delivering, and how you show your CEO and board that security is enabling it

These themes are our starting point, not a limit. *We chose them ahead of time, but the day is yours. If the group feels strongly about another topic as we go, we'll follow your lead and pivot.*

The day at a glance

Wed, Nov 18: arrivals, welcome reception and dinner (7:00pm)

Thu, Nov 19

8:00 Breakfast and arrivals. Pick up your name tag and add one thing that isn't on your LinkedIn.

9:00 Welcome and framing. Emily opens with a thank you and an overview of the day.

9:05 What's Not on Your LinkedIn. A quick whole-room icebreaker: everyone shares one thing about themselves that isn't on their LinkedIn.

9:15 Executive welcome. Alastair and Bryan on where Harmonic is headed and why this group matters.

9:35 Warm-up. A quick game, then a long whole-room conversation: what does an end-to-end AI security program mean to you? Everyone gets a turn to share.

11:00 Small-group working session. In groups of 3-4, you act as Harmonic's Product Council across the three themes and write your ranked asks.

12:15 Lunch

1:15 Guest speaker

1:45 Finish up the small-group working session and share back to the room.

2:45 Product deep-dive with Bryan. What we heard and our roadmap, theme by theme: *what's on the roadmap, partly there, or a gap.*

4:00 Closing and next steps, including what we're committing to and by when. Then a break and time to freshen up before happy hour.

4:30/5:00 Happy hour in the Biergarten, then dinner

How to prepare

This is a working session, not a presentation. Plan for 15-20 minutes. Jot down your answers and bring them with you. They shape the working session.

1. **Your top 3 AI governance priorities** for the next 12 months.
2. **One thing that isn't working** with your current tools, process or vendors (including us).
3. **One gap you wish existed:** a capability or outcome nothing gives you yet.
4. **Your AI security program, end to end:** what it includes today (policy, training, visibility, controls for tools and agents, ownership, reporting), what "done" looks like in 12 months, who owns it, and how you think about employee privacy when you monitor AI usage.

Bonus: finish this sentence: "Harmonic should build _____ so that I can _____." You'll write your asks on the day, so come with a head start. Also come with one thing about you that isn't on your LinkedIn.

Have any questions or ideas? Reach out to Emily at emily@harmonic.security.

We can't wait to see you in New York!
